

## Hey America

Hey old England what's the problem with ya,  
Where are you coming from, rest your head upon my shoulder  
Hey America yes I'm equal to ya no I don't believe  
What's it like just being failed Europeans  
Don't you know what I mean?  
Our Ladies in green

Hey Italia you used ta rule the world,  
Now you tri-colour flies above a calmer Roma  
Hey Australia is there life down under?  
What's it like just bein' failed Europeans  
Seems a problem to me  
An I don't care what they say anymore  
I get through my life with a foot in the door  
An if you don't love me them just say so  
Two people in love

Argentina can we forgive your blunder  
Yes of course we can (the Major said we need the horses)  
Hey South Africa can we forgive your murder  
Yes of course we can (the Bank of England needs the resources)  
What's it like just being failed Europeans  
Never really knowin', always second guessin'  
No one cares about yer roots in the old country
